Josef Rolando II P. Anza

IT GRADUATE SPECIALIZING IN CYBERSECURITY

Meycauayan, Central Luzon, Philippines | +63 956 449 5858 | jorolanza14@gmail.com

Professional Summary

Goal-driven Information Technology graduate specializing in Cybersecurity, with hands-on experience in full-lifecycle software development, system architecture, and mobile security assessment. Proven track record leading end-to-end technical projects—including an enterprise QR-code school management system and AI-enabled computer vision tools. Demonstrates strong foundational knowledge in penetration testing, application security, and secure coding practices.

Experience

Intern | Web Developer, RCDOK Kalookan Inc. (Website) **Jan 2026-Apr 2026**

- Developed software solutions while adapting to agile sprints and dynamic project requirements.
- Collaborated on code debugging, functional testing, and troubleshooting across system components under fast-paced deployment cycles.
- Developed backend and frontend systems for booking website needed for the church clients

Intern | Web Developer, RCDOK Kalookan Inc. (Booking System, Mobile & Desktop) Jan 2026-Apr 2026

- Developed frontend UI modifications for the official project plan reflected in the updated digital prototype.
- Carried out a thorough analysis of the Booking System Website interface.
- Created a list of UI components (forms, navigation bars, and modals) that need to be visually styled to fit the Diocese's desired user experience.

Education

Mapua University Makati Campus **2023-2026**

Major: Bachelor of Information Technology (Specialization in Cybersecurity)
Graduated: 2026

Academic Honors & Recognitions:
- Top Performing Student in Information Technology (A.Y 2024-2025)
- Dean’s Lister (Rank 4)
- 1.334 GWA

Mapua University Intramuros Campus **2021-2023**

Senior High School
Graduated: 2023

Academic Honors & Recognition:

-With Highest Honors (Grade 11)
-With Highest Honors (Grade 12)

Skills & abilities

- Python, C++, HTML, CSS
- Computer Vision / AI Image
- Matching, QR Code Integration, Git/Version Control
- Cybersecurity & Methodologies: Penetration Testing
- Mobile Application Security Testing
- SSL/TLS Assessment
- Vulnerability Analysis
- Languages: English, Filipino

Key Projects & Research

QR-Code-Based School Management System (Academic Thesis), 2025

- Led the architectural design, implementation, and deployment of a QR-code-driven school management system intended to streamline institutional operations.

Campus Lost & Found Tracker with AI Image Matching, 2025

- Built an automated campus lost-and-found system integrating computer vision and AI image matching to pair uploaded photos of lost belongings with database records.
- Designed user-friendly workflows to enhance precision, retrieval turnaround time, and operational efficiency.

Evaluating Smartphone Security Against Mobile Banking Malware, 2025

- Conducted controlled penetration testing to evaluate smartphone resilience against mobile banking threats and security flaws.
- Analyzed critical vectors including SSL/TLS configuration vulnerabilities, insecure local data storage, overlay attacks, and abuse of accessibility services.

Forest: Gamified Productivity & Focus Prototype, 2025

- Engineered a gamified productivity application combining behavioral motivation principles, timer sessions, and goal visualization to foster concentration.

Certifications

Mar 2025	AI For Everyone, DeepLearning.AI
Mar 2025	Machine Learning for All, University of London
Apr 2025	Programming for Everybody (Getting Started with Python)
Jun 2025	Play It Safe: Manage Security Risks, Google
Jun 2025	Foundations of Cybersecurity, Google
Jul 2025	Put It to Work: Prepare for Cybersecurity Jobs, Google
Jul 2025	Assets, Threats, and Vulnerabilities, Google
Jul 2025	Tools of the Trade: Linux and SQL, Google
Jul 2025	Automate Cybersecurity Tasks with Python, Google
Mar 2026	Cloud Architecture and Security, Packt
Mar 2026	Cloud Operations and Troubleshooting, Packt
Mar 2026	Cloud Deployment, Packt
